Farmers, Read This.
We have been informed that it has been circulated over the county that we are not in the trade for Corn, Wheat, Rye, Oats, etc. We desire to contradict this report and say to our friends that we are in the market for ALL KINDS OF GRAIN and pay market value for same. We also wish to state in this connection that we will be in the market for New Wheat and, as heretofore, pay the highest market price. Please remember, also, we keep all kind of field seed, such as Clover, Timothy, Orchard Grass, Blue Grass, Cow Peas, Millet and Hungarian seed.

The Right Man.

As in our city councilmen must be elected this fall, it is about time the good people were deciding upon the men. As to the latter, we have many number of citizens who will make fine councilmen, but in selecting a mayor, we must be more careful and get a man who we know will always be for improvement, the upbuilding of the town and never block what three-fourths of the people want. We know of no man who will fill the bill any more satisfactorily than will Mr Ed Bishop, and we have heard many similar expressions from citizens who are for push and hustle. Ed Bishop is a man of fine sense, as honest as the day is long and absolutely nothing can swerve him from doing what he believes is for the best. Our late mayor, Robert Kinnaird, was, undoubtedly the best one any town ever had. He was up to date and the howl of the mob back had not the slightest weight with him. Ed Bishop is just such a man, and the kind Lancaster needs to pull her out of the sleepy rut into which she has drifted. We want no old fogey or know it all muckshacks who are against every proposition brought up for the advancement of Lancaster, but select a wide awake progressive young man like Ed Bishop and the people will never regret the action.

RESOLUTIONS.

Lancaster Lodge, 104, F. & A. M. The undersigned committee begs leave to offer the following resolutions: Whereas, it has pleased the Grand Master of the Universe to call from us our beloved brother, Robert Kinnard, who has so faithfully served as secretary of this Lodge for so many years, be it

Resolved, That in his death Lancaster Lodge has lost one of its most faithful, efficient and beloved members, and the fraternity at large, one who was ever faithful to his vows and an ornament to the Craft.

Resolved, That the life of Brother Kinnard was so free from malice, and sinfulness, and his character so spotless that not only this Lodge has sustained a great loss, but the church has been deprived of an exemplary member and the community a citizen whose usefulness and example were of inestimable value.

Resolved, That this Lodge extends its deepest sympathy to the bereaved family; that these resolutions be spread upon the minute book, a copy given to the family and printed in the Central Record.

Jacob Joseph, W O Rigney, Louis Landram, Committee. June 23, 1905.

Lancaster, Ky., June 23, 1905.

The committee on resolution report the following, which were unanimously adopted:

Whereas, it has been the will of the Supreme Architect of the Universe to take from us our beloved Companion, Robert Kinnard, be it

Resolved, That in his death, Lancaster Chapter No 56 has lost one of its brightest and most beloved Companions, one who lived up to the teachings of every point in the hidden mysteries of Masonry, and one who was ever ready and willing to help, aid and assist all poor, distressed Masons, to the very limit of his means.

Resolved, That we will ever cherish his memory, his lovable disposition and kindness of heart having won an affection from the members of this Chapter, which will never die.

Resolved, That these resolutions be spread upon the minute book of this Chapter, a copy sent to his family and printed in the Central Record.

W O Rigney, Louis Landram, Committee. F P Frisbie.

Some one has said that "Scandal is what you tell to every one before breathing a word of it to the person who it is about." And it might be added, says the Ohio Penitentiary News, that the gossiper is the person who does the telling. Scandal and gossip are two things for which His Santastic Majesty should be thankful. They promote more hell on earth than all the infidel and agnostics combined, more than all the saloons and rum shops in the land; and they are as liable to be found kneeling at the church altar as anywhere else. A good many people cultivate a habit of talking just to be entertaining, and a shallow brain and a willing tongue are gifts that should be spurned.

Huge Task.

It was a huge task to undertake the care of such a bad case of kidney disease as that of C F Collier, of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone I could not sit on a chair without an cushion and suffered from dreadful backache, headache and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach. Guaranteed by R E McRoberts, druggist; price 50c.

Im

GERMAN WAR ON PHthisis

Rules for the Guidance of the Victims of Tuberculosis Sent to State Department.

Consular Clerk Murphy, of Frankfort, sends to the state department the "measures for preventing the spread of consumption" recommended by the city authorities. Every consumptive and every person who coughs should take care that it is received in spittoons or similar vessels containing water or still water, chloride of lime or salt water. Such liquids prevent freezing and also the drinking of the water by insects. These eisopidors should be two inches high and eight to ten inches in diameter. They should have smooth, slightly curved edges and should be made of smooth glass, porcelain, china or enameled iron. They should contain water to a depth of four-fifths of an inch. As the water evaporates more should be added. The eisopidors should be cleaned daily with boiling water. Consumptives should give especial attention to cleanliness. The sitting rooms and bedrooms of consumptives should have only such curtains, bed coverings and the like as can be easily washed. There should be no carpets. The entire floors of such rooms should be washed daily, and even in winter the rooms should be properly aired daily for at least one hour. Uncooked milk may become a transmitter of consumption. The public is warned against its use.

No Secret About It.

It is no secret that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucken's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is at O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at McRoberts' drug store. Im

FARM AND GARDEN

LACING A LEATHER BELT.

Every Farmer Who Owns Machinery Should Know How to Do This Work Expediently.

Style 1 is lacing used on leather belts where the heavy load is applied and where the belt does not run under idler or turn sharp angles.

Styles 2 and 3 are a hinge stitch for tight belts where the belts run under idler or turn short curves, as in a hinge stitch the belt can be doubled back and forth each way and it will not

wear, when it is used in Style 1 it would wear out in a short time.

Styles 4, 5, 6 and 7 are used on heavy belts where a heavy strain is put on them and especially when belts become cold and hard to get lacing to hold. This style of lacing will hold as well as the other part of the belt will.

Style 8 is a double hinge stitch and should be used where a heavy strain is placed on the belt and in turning short curves or in running under small idlers. The main drive belts used on separators sewn in this way will often last two seasons without replacing the belt. Where these stitches are not familiar to the operator he can easily grasp the idea by threading a needle and using the cut as a model and drawing lines on the belt with the thread. When he gets the idea it will be no trouble for him to sew a belt, always commencing in the center of the belt when sewing and ending in the center. If he has a Rogers punch, by simply pushing it through the leather it will form a half circle to push the lace through and then cut a little notch in the lace and it will catch on this half circle and cannot be pulled out. It will not be necessary to tie the lace in any way. In lacing very often the end of the lace is soft and it is hard to thread through the holes, but if you will simply wet the end of the lacing or oil it, then light a match and crisp the end of the lacing it will harden a hard point which will save time and annoyance.

Every thresherman who does not understand this style of lacing should take a couple of cards and punch holes as indicated by the cut and sew the cards with a shoe string for lacing, as these make good lacing for practice and are easier than tracing with a thread.

Thresher World.

The First Plowing in India.

The commencement of the farming season in India is celebrated with ceremonies. The first furrow in the village is plowed by a committee of farmers from the neighborhood. The plow first worshipped and decorated. The bullock or camel which draws it is covered with garlands of flowers; bright-colored pieces of cloth and rosaries of ribbon are braided into its tail and hung upon its horns. Behind the plow follows "the sower," who is also decorated with flowers and ornaments. has a red mark upon his forehead and his eyelids colored with lampblack. He drops seed into the furrow. Behind him comes a second man who has fallen outside of the furrow. When the furrow is finished the farmers assemble at some house in the neighborhood and have a dinner. There are similar ceremonies connected with the harvest.

Some Things That Are Not.

Cayenne pepper doesn't come from a pepper plant, nor Burgundy pitch from Burgundy. Jerusalem artichokes do not come from Jerusalem, nor turnkeys from Turkey. Camel's hair bushes are made from the tail of the squirrel. Garman silver is not silver, and it was invented in China. Cork legs are not made of cork; neither do they come from Cork, Ireland. Prussian blue does not come from Prussia. Irish stew is not an Irish, but an English dish. Cleopatra's Needle was set up 1,000 years before that lady was born. Chamois leather is not the hide of a chamois, but the flesh side of sheepskins.—Boston Herald.

Yale's Fine Indian Relics.

The Peabody museum of Yale university has recently received a collection of Indian relics from Christopher Wren, of Plymouth, Pa. The collection includes Indian pestles, scrapers, and other utensils. Prof. Schubert, the new head of the museum, is planning an extensive relabeling and reclassification of the objects in the museum by which, for one thing, the vertebrae fossils will be grouped together, and as far as possible, arranged topographically.

WEEKLY SUNDAY READING

THE FOOL HAS SAID.

Psalm XIV.
The dusky deep is set with gems
That glimmer with a fadless light,
With base and wondrous diadems
That are more precious than the sun,
And glister the holy night,
And yet the duffers gravely nod
And scoff at all the signs of might,
The fool hath said there is no God.

The sea is emerald and wide
And moves with slow and solemn sweep;
Restless is the restless tide,
That washes in from land and sea,
The waves in fury, hate, and fear,
And still the critter mope and plod—
Along the shore and blindly creep—
The fool hath said there is no God.

The prairies reach in endless green,
As level as a threshing floor;
No shade to mar the brilliant scene,
With wilding blooms bespangled o'er
The prairie that warms and warms soar,
And down along the dead and dead—
And still the pestilence comes more—
The fool hath said there is no God.

The day, the night, the dawn, the dusk,
The dawn, the hope and hearts that yearn,
The bud, the bloom, the withered husk,
The leaf, the fall, the leaves that turn,
And skies that are as pale that burn,
And man himself, he is a clot?

Nay, such beliefs all men should shun—
The fool hath said there is no God.

Might Have Been Worse.

Mrs. Gobshy—My! I was at the dentist's this afternoon and he made me keep my mouth open a whole hour. It nearly killed me.

Mrs. Stillwater—Yes, but it might have been worse. If he had made you keep your mouth shut for half that long it would have killed you for sure.—Chicago Journal.

Philadelphia now has nearing completion the largest filtration system in the world. This will include four plants, with capacities of 248,000,000, 65,000,000, 20,000,000 and 12,000,000 gallons.

Absolutely Prevents BLOOD POISONING.

There is a new product manufactured in Louisville, Ky., known as Paracamph, First Aid to the Injured, which has proven an absolute preventive of blood poisoning, if applied immediately after receiving any kind of wound. Paracamph is a combination of rare camphor, oil of camphor and camphor and owing to its remarkable quick relieving and healing powers is highly endorsed by the medical profession, hospitals and by all public institutions where a great many people are employed. Paracamph contains neither opium, morphine nor cocaine. Hence it is a safe, clean, pure remedy which should be kept in every household to be used in case of emergencies. Mothers will find it far superior to witch hazel, arnica, calamine, old salves or liniments, because when applied it goes straight to the interior cells, sealing the aches and drawing out the poisons, oiling the muscles, drawing out the fever and inflammation by inducing perspiration. It is the most perfect external application that has been offered to the public, and the discoverer is to be congratulated for bestowing upon the American people such a useful and meritorious product. We learn from many sources that Paracamph is unequalled for the cure of Neuralgia, Rheumatic Swellings and Inflammations. The manufacturers guarantee every bottle to give satisfaction—so no chance is taken by trying Paracamph. It is sold in 25 cent and \$1.00 bottles by all good druggists or sent direct upon receipt of price. Manufactured only by The Paracamph Company, of Louisville, Ky., a \$300,000 corporation. C. Not Changed a Bit.

"Hello, Bill, old man! Well, well! I haven't seen you since the old days when we used to run around together." "No, Jack. Ah, those old days. What a fool I used to be then!"

"Tell you, I'm glad to see you. You haven't changed a bit, old man."—Tit-Bits.

Wanted to Be.

"Yes," said the young student, thoughtfully, "when I get interested in a subject I never stop until I have embraced it thoroughly."

"That's nice," was the hesitating reply. "Do—do you think I'm an interesting subject?"—Tit-Bits.

Spring Catarrh

Changeable Weather Causes Disease, Breathy, Hoarse and Cough.

The changeable weather of Spring, with its warm days and cold nights, is responsible for a great increase in the number of cases of catarrh. It is now that Hyomei, the only guaranteed treatment for catarrh that cures with out stomach dosing, should be used in every home.

Hyomei is a scientific method by which pure air impregnated with Nature's own remedies for the cure of catarrh, can be inhaled by every sufferer in his or her home. Breathed through the neat pocket inhaler that comes with every outfit, its healing, volatile, antiseptic fragrance reaches the lungs and air passages as no stomach dosing possibly can. It gives immediate relief and makes lasting cures.

Proof that the Hyomei treatment will do all that is claimed for it is found in the guarantee under which R. E. McRoberts sells it, an agreement to pay back the price, if the purchaser can say that Hyomei has not given satisfaction. Complete outfit \$1.00, extra bottles 50¢.

WAS GIVEN UP TO DIE.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with a bad and blabbering disease which caused much pain and worry. I lost friends and was all run down and nearly gave up. I had to abandon work entirely. I had three of the best physicians who I met in good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured."

TWO SIZES, 50¢ AND \$1.00.
